C. READING. (2.0 pts)

I. Complete the passage with the words in the box. (1.0 pt)

automatically	devices	move	easier	who
---------------	---------	------	--------	-----

Cleaning the house is a daily task. Thanks to technology, it has become easier. Robotic vacuum cleaners are smart (1) which help people keep their homes clean without much effort. These small, automated machines can move around a house and clean floors by themselves. Robotic vacuum cleaners are convenient. They work (2), so users do not need to push or control them. People can set a schedule, and the vacuum will clean at a specific time. This is especially useful for busy people (3) do not have time to clean their homes every day. Robotic vacuum cleaners use sensors to detect dust and dirt. They can (4) under furniture and reach places that are difficult to clean. Some models even have smart mapping technology, which helps them remember the layout of the house for better cleaning. Robotic vacuum cleaners are a useful invention that makes cleaning (5) and more efficient. They are a great option for people who want a smart and effortless way to keep their homes clean.

II. Read a passage and answer the questions below. (1.0 pt)

I'm a 14-year-old girl who enjoys learning different languages. My first language is Vietnamese. When I was very small, my mother always told me stories in Vietnamese. I loved them so much that I started learning how to read in Vietnamese. I could read quite fluently when I was 5 years old. Mum encouraged me to read suitable books every day. I also started learning English at this age. I really enjoyed the fun and engaging English lessons with foreign teachers at my nursery school. At home, Mum began reading simple English stories to me. Mum and I also listened to English songs.

My primary school was a bilingual one. Besides the subjects taught in Vietnamese, we had 10 lessons of English, and another eight lessons of maths, science and IT in English every week. This was a really good way to learn the language because we could learn English naturally. When I entered junior secondary school, Mum encouraged me to learn another foreign language. I didn't want to go to the language centre, so I chose to learn Spanish with *Duolingo*. The lessons were fun and addictive because they were designed like games. Now I can speak Spanish and read stories in Spanish.

Questions:

1. What is the girl's first language?
2. When did she start learning English?
3. How were the English lessons at her nursery school?
4. How many English lessons per week did she have at primary school?
5. Did she learn Spanish with *Duolingo*?

D. WRITING. (2.0 pts)

I. Complete the second sentence so that it means the same as the first. (0.4 pts)

1. The teacher advised us not to waste time playing video games.
→ The teacher suggested that
2. James was a good cook, but his food stall was not popular with customers.
→ Though

II. Combine the two sentences, using a defining/ non-defining relative clause. (0.8 pts)

1. Mars is very much similar to Earth. Mars is also called the Red Planet.
2. That is the tour guide. I spoke to him yesterday.
3. The Moon is Earth's only natural satellite. Its surface is dark.
4. Some languages have a lot of speakers. English is one of them.

III. Rearrange the given words to make meaningful sentences. (0.4 pts)

1. advises / a / to improve / yoga class / flexibility / She / taking / relaxation/ and / .
2. we / which / The carbon dioxide / plants / breathe out / vital / to / is/ .

IV. Write complete sentences from the given cues. You can make any changes and add more words if necessary. (0.4 pts)

1. I/ would like / meet / writer / write / my favourite / Japanese comic.
2. what countries / people / speak English / first language/ ?

E. SPEAKING (2.0pts)

-----THE END-----
