There are many things we should do to manage our time effectively. Firstly, we should set specific (13) _____ and prioritise them according to their importance level. This will help us keep focused on our most (14) _____ tasks and avoid wasting time on tasks that do not contribute to our goals. Secondly, creating a schedule or to-do list can help us manage our time efficiently by breaking down our day into manageable chunks. We should also be realistic about how long each task will take and build in extra time for unexpected interruptions or (15) _____. Thirdly, it is essential to eliminate distractions and time-wasting activities, such as social (16) _____ or unnecessary meetings, which can reduce our productivity. By following these tips, you can effectively manage your time and (17) _____ success in all aspects of your life.

Task 2. Read the passage and do the following tasks. (1.25 pts)

Twenty years ago, people tried to leave the suburbs for cities but nowadays many people are reluctant to make such a move. They say that compared to suburban areas, city life has many drawbacks. The high cost of living is the first disadvantage. The bigger the city is, the higher the living cost is. Accommodation and petrol are expensive. Food and drinks are also pricey. Apart from that, city people seem to suffer from more noise and air pollution. The densely populated neighborhoods, busy traffic and big construction sites make city noisy and dusty. These are harmful to people's health, such as increasing their stress levels, disturbing their sleep and making **them** suffer from breathing problems.

Lack of space is another drawback of city life. House prices are high in the city, so people tend to live in smaller houses or in apartment blocks. Many cities lack spaces for outdoor activities; therefore, teenagers often hang out at shopping malls or in entertainment complexes instead of doing sports outdoors. The city's authorities are trying to overcome these problems. However, they still have a long way to go before they can reduce living costs and pollution, and increase green spaces to make all cities in the world more liveable places.
