Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions from 7 to 14

The development of technology has changed how people live every day. The Internet is one of the most important inventions that brings many benefits to humans. It lets people talk over long distances in only a few seconds. Because of this, the world feels smaller and more connected. This global link is very **useful** for friendships, family, and business. Before the Internet, working together between countries was slow and difficult. Now, people can share ideas, send messages, and plan projects almost instantly.

Artificial Intelligence (AI) is also important in modern life. **It** helps systems work better and faster. For example, AI guides drivers to find the best roads, saving time and fuel. Smart home devices also make life easier. Robotic vacuum cleaners clean houses quickly, giving people more free time for other activities. AI is also used in health care, shopping, and entertainment, showing how wide its impact is.

Education has grown with digital tools. Students can now use laptops and phones to reach many learning apps, online books, and videos. This makes learning open to more people than in the past, when resources were limited.

Technology today makes life more **convenient**. People can connect, learn, and finish tasks faster than ever before. Even if some feel stressed by the speed of change, most agree that these inventions improve daily life.

Question 7: What is the main idea of this passage?

- A. To mention benefits and the convenience provided by modern inventions.
