2/ The "greenhouse effect" is the warming that happens when certain gases in Earth's atmosphere (1) _____ heat. These gases let in light but keep heat from escaping, like the glass walls of a greenhouse. First, sunlight shines onto the Earth's surface, (2) _____ it is absorbed and then radiates back into the atmosphere as heat. In the atmosphere, greenhouse gases trap some of this heat, and the rest escapes into space. The more greenhouse gases are in the atmosphere, the more heat gets trapped.

Scientists have known about the greenhouse effect since 1824, when Joseph Fourier calculated that the Earth would be much colder if it had no atmosphere. This greenhouse effect is what keeps the Earth's climate (3) _____. Without it, the Earth's surface would be an average of about 60 degrees Fahrenheit cooler. Scientists often use the term "climate change" instead of global warming. This is because as the Earth's average temperature climbs, winds and ocean currents move heat around the globe in ways that can cool some areas, warm (4) _____, and change the amount of rain and snow falling. (5) _____, the climate changes differently in different areas.

❶ Earth Hour is an annual global campaign that encourages people and businesses around the world to switch off electricity at the same time for one hour at the end of March. Organised by the World Wide Fund for Nature (WWF), Earth Hour started in Australia in 2007 when 2.2 million people in the city of Sydney turned off all **non-essential** lights for 60 minutes. Since then it has grown to a massive global event. In 2013, more than 7,000 cities and towns worldwide participated in this campaign. Every year landmarks and well-known buildings around the world such as the Sydney Opera House and Harbour Bridge, the Petronas towers in Malaysia, the UK Parliament, Buckingham Palace and the Empire State Building take part and "go dark" for Earth Hour. Therefore, Earth Hour has been a symbolic event to make people think about the problems of climate change and show their commitment to protect the planet.
