1> A pioneer leader for women's rights, Susan Anthony became one of the leading women reformers of the 19th century. The temperance movement dealt with the abuses of women and children who suffered from alcoholic husbands. Also, she worked tirelessly against slavery and for women's rights. Anthony helped write the history of woman suffrage.

At the time Anthony lived, women did not have the right to vote. Because she voted in the 1872 election, a US official arrested Anthony. She hoped to prove that women had the legal right to vote under the provisions of the 14th and 15th Amendments to the Constitution. At her trial, a hostile federal judge found her guilty and fined her \$100, which she refused to pay.

Anthony did not work alone. She worked with reformers of women's rights such as Elizabeth Cady Stanton and Amelia Bloomer. Susan worked for the American Anti-Slavery Society with Frederick Douglass, a fugitive slave and black abolitionist.

2> **WHAT IS YOUR LEARNING STYLE?**

If you find yourself learn better by making notes during the lecture, or when the teacher uses a new word, you want to see it written immediately, then you are very likely to be a more visual learner. You prefer to see the written words. You learn by reading and writing. Visual learners often think in pictures. If you find a particular task or text difficult, look for sources that will suit your learning style, e.g. sources with illustrations, charts, tables, or videos.

If you prefer recording the lecture and listening again to taking notes, or you memorize something by repeating it aloud instead of writing it out several times, you are probably a more auditory learner. You prefer to learn by listening and speaking. Auditory learners often learn best from lectures, discussions, by reading aloud, and by listening to audio material.
