Part 2. Read the passage and choose the correct answer A, B, C or D to each of the questions:

Twenty years ago, people tried to leave the suburbs for cities but nowadays many people are reluctant to make such a move. They say that compared to suburban areas, city life has many drawbacks.

The high cost of living is the first disadvantage. The bigger the city is, the higher the living cost is. Accommodation and petrol are expensive. Food and drinks are also pricey. Apart from that, city people seem to suffer from more noise and air pollution. The densely populated neighbourhoods, busy traffic, and big construction sites make cities noisy and dusty. These are harmful to people's health, such as increasing their stress levels, disturbing their sleep and making **them** suffer from breathing problems.

Lack of space is another drawback of city life. House prices are high in the city, so people tend to live in smaller houses or in apartment blocks. Many cities lack spaces for outdoor activities; therefore, teenagers often hang out at shopping malls or in entertainment complexes instead of doing sports outdoors.

The cities' authorities are trying to overcome these problems. However, they still have a long way to go before they can reduce living costs and pollution, and increase green space to make all cities in the world more liveable places.

1. What is the passage mainly about?
A. The reasons for moving to the suburbs. B. The disadvantages of city life.
C. The high cost of living in cities. D. The causes of pollution in cities.
2. Why does the author mention "accommodation, petrol, food, and drinks" in paragraph 2?
A. To give examples of high living costs. B. To explain how convenient city life is.
C. To describe what city people often lack. D. To suggest city people save money.
3. What does the word "**them**" in paragraph 2 refer to?
A. bad effects B. stress levels C. city people D. construction sites
4. Which of the following is NOT mentioned about city authorities?
A. They find shopping malls interesting
B. They all want to solve problems for all the world's cities.
C. They prefer them to entertainment complexes.
D. They reduced pollution levels in cities by half last year.

Part 3. Read the text then answer the questions:

HANOI, A CAPITAL OF TRADITIONAL CRAFTS

Hanoi has long been home to hundreds of craft villages. Over the years, many of the crafts have developed, while some have disappeared altogether.

The heart and soul of Hanoi's vibrant old crafts are its craftsmen and women. One such couple are Nguyen Van Hoa and his wife Dang HuongLan of Ba Dinh District's Hang Than Street. They are among the few artisans still making elaborate cardboard masks in order to preserve the traditional culture.

Although the work itself requires many steps, the materials required are simple: newspapers, glue, paint and paintbrushes. The first step entails tearing the newspapers to pieces and then using glue to combine them into a mold. The masks are painted one color at a time and then laid out to dry. Cardboard mask making is therefore dependent on dry weather and the couple can only make about 2,000 masks per festival. These are priced from VND25,000 to VND35,000 a piece, bringing in VND50-60 million - a sum is not commensurate with the efforts that go into making these elaborate crafts.

1. How many materials are there to make that craft?
2. Does the craft making process depend on dry weather?
