Dear Nam,

Today, I will tell you about my volunteer work. Volunteering has become very popular in Vietnam. Many people take part in charity events. I also started to do volunteer work when I was in grade 6. At my age, I can't donate blood or too much money, so I often donate food, books, and clothes to street children and homeless people. I often do this work with my mother. Last Sunday, we donated milk and vegetables to a nursing home. I met the elderly there. I helped them do some cleaning. We talked and danced with them and they were very happy. Some people think that doing volunteer work is a waste of time, but in my opinion, it helps me relax after school. I feel very happy to bring love and happiness to others, and it is really meaningful to me.

Audio script 2:

Good morning, children! Today I'll give you some tips on how to keep fit. First, remember to have different kinds of food. Some of you may like hamburgers and want to have it all the time, but that's unhealthy. Change your food as often as you can! Second, drink more water and milk. They will bring you more good minerals and help you build strong bones. Fruit juice is also good for you but avoid soft drinks because they have lots of added sugar. The next tip is: Do not use your phones, tablets, computers or watch TV too much! They are not good for your eyes and they keep you away from physical activities. Always keep your body active! Playing football, badminton, or any kinds of sports will surely bring you good health.
