PART TWO. READING (8 pts)

Read the following text. Do the tasks below the text. (4 pts)

Did you know that June 21, 2026, was a very special day? For one thing, it was Father's Day. Not only did those celebrating Father's Day get gifts, but they also enjoyed extra daylight this year. This was because it was the June solstice in the Northern Hemisphere, which marked the official start of summer. It was the longest day of the year for places north of the equator. However, if you live in the Southern Hemisphere, June 21 was the shortest day of the year and the start of winter.

People have celebrated the summer solstice for thousands of years. The most famous celebration happens at Stonehenge in England. Stonehenge is a massive, 4,000-year-old circle of giant stones. On this special day, the sun rises perfectly in line with these ancient stones. Every year, thousands of people gather there to watch this magical sunrise together.

Question 1. Decide whether this sentence is True or False:

This year's June solstice fell on the same day as Father's Day.

(Write True or False in the blank) _____

Question 2. Decide whether this sentence is True or False:

On June 21, 2026, daytime was longer than nighttime in places south of the equator.

(Write True or False in the blank) _____

Hi Nhat Linh,

I hope you're doing well. I have to tell you about my favourite subject this year: Science! Our teacher, Ms. Thao, is amazing. She makes every lesson (5)_____like an adventure, and what's more, she never gets angry at us. Yesterday, we did a crazy chemistry experiment in pairs. My (6)____partner, Khang, was so nervous that his hands were shaking! We had to mix a bright blue (7)___with a strange white powder. Suddenly, it started fizzing and bubbling into a giant purple foam! Khang jumped back in shock and let out a loud scream, which surprised everyone. (8)_____, Ms. Thao just smiled and gave us a big thumbs-up for a successful experiment. The whole class had a very exciting time.

What about you? How are your lessons this year?
